

CLIENTS OBJECTIVES

The clients, an energetic young family, were eager to transform their Victorian home in Birmingham's inner-city area into a modern and functional living space that suited their dynamic lifestyle. Their main objectives were to enhance the property's overall space, integrate bold and high-contrast design elements, and improve the functionality of their home. They envisioned a seamless blend of classic charm and contemporary convenience, with a focus on maximising both the living areas and aesthetics of their home.

WHAT WE DID

The project featured a single storey rear extension that expanded the living area, a complete renovation of the existing space including modernised bathrooms and kitchen, and a dormer loft extension to add valuable extra room. The internal fit-out was executed with precision, incorporating bold design choices and high-contrast elements that give the home a vibrant and contemporary feel. The result is a beautifully redesigned home that perfectly aligns with the clients' vision and enhances their living experience.

"Probuild did our extension and did an excellent job. Even though we were a smaller build they took us seriously as a client and always had time for us. We had excellent project managers and were always grateful for their advice."

BEFORE

In the heart of Birmingham's historic neighbourhoods, we transformed a Victorian home for a dynamic young family, blending classic charm with modern functionality and bold design.

SERVICES SELECTED:

- Pre-Construction & Surveys
- Internal design, layout and space planning to achieve optimum flow of living areas
- The build & complete finishes
- Supply and Installation of Kitchens, Bathrooms & Bedrooms

PROJECT TIMELINE:

6 months

CHALLENGES / SOLUTIONS:

Our team rose to the challenge of working within the constraints of Birmingham's historic inner-city neighbourhoods, such as Kings Heath, Bearwood, and Harborne.

AFTER

“Probuild did our extension and did an excellent job. Even though we were a smaller build they took us seriously as a client and always had time for us. We had two excellent project managers in Wes and Matt, and were always grateful for their advice.

The builders were tidy, professional and always so nice to our neighbours. Everyone loves the finish. They are not the cheapest but you get what you pay for.”

CLIENT TESTIMONIAL
