

CLIENTS OBJECTIVES

The clients came to ProBuild360 with the objective of finding a company that could offer a full turn-key solution for the design and refurbishment of their home. Their primary focus was on achieving a high-end, luxurious look and feel throughout the property. They wanted a company that not only understood their vision but also had the capability to deliver every aspect of the project seamlessly, from design to final installation. Additionally, they sought a clear and transparent approach to budget management, ensuring the project stayed within financial targets without compromising on quality.

WHAT WE DID

We guided them through a creative process, offering extensive design ideas that aligned with their vision. Throughout the project, we ensured stunning attention to detail and maintained a high standard of quality in both design and installation. To keep the project on budget, we provided a clear cost breakdown and closely monitored expenses. With our in-house design team and skilled tradesmen, we delivered the project on time, within budget, and with the high-end finish the clients desired.

"Their business model is exceptional. They really do deliver a turn-key solution from start to finish using their in-house design team and in-house tradesmen."

BEFORE

DURING

Transforming our clients' home with a full turn-key design and refurbishment, meeting the clients' high-end aesthetic and budgetary goals

SERVICES SELECTED:

- Initial Consultation
- Project feasibility and costing exercise
- Internal design, layout and space allocation
- Interior Design
- Product supply (kitchen, appliances, bathrooms, flooring etc)
- Complete Installation
- Decorating and finishing touches

PROJECT TIMELINE:

10 months

CHALLENGES / SOLUTIONS:

A challenge with this high-end, top-floor apartment was restricted access and minimising neighbour disruption; we addressed this through clear communication and used alternative methods, including craning in heavy items like the worktops.

AFTER

“ProBuild360 have just completed a full design and refurbishment of our property. We were looking for a Company that could offer a full turn-key solution. Our priority was to find a Company who were interested in delivering a high-end look & feel.

It was clear from our first initial meeting on site that the entire team from PB360 were very engaging and were interested in making sure we had the best possible outcome. Without any commitment, they came to see us with all the required parties (Owners, Commercial, Designers & fit-out team). We soon realised that we were going to be taken on a journey that would make us think differently about how we wanted our new home to look. This we have to say, was the best thing that could have happened. We were shown such a wonderful array of designs that we would never have thought of ourselves. From the eye for detail, to the superb installation quality, we were rewarded with a wonderful home. We could not have had a better outcome.

As part of the journey, we were given a cost breakdown of every element of the scheme. This gave us the ability to manage the budget throughout the project and the guys at PB360 really did focus on this, and our home was delivered on budget. If I was to name individuals, it would not be fair for everybody who played a part in the overall project. The entire team are fantastic. Their business model is exceptional. They really do deliver a turn-key solution from start to finish using their in-house design team and in-house tradesmen.

We would thoroughly recommend ProBuild360.”
